

Data element	Response		
Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>
Specimen labelled as	Text	As stated by the clinician	
Operative procedure	Text	As stated by the clinician	
Laterality	Right	Left	
Specimen dimensions	Length x width x thickness __x__x__mm		
Description (anatomical components included)	Submandibular gland	Spinal accessory nerve	Internal jugular vein
	Sternocleidomastoid muscle	Other, specify	
Lymph node groups/levels included	Submental IA	Upper jugular IIA & IIB	Lower jugular IV
	Submandibular IB	Middle jugular III	Posterior triangle VA & VB
<i>Record for each anatomical level</i>			
Number of lymph nodes retrieved	__		
Macroscopic metastatic tumour	No	Yes	Cannot be assessed
<i>If present, record</i>			
Maximum dimension of largest metastatic deposit	__mm		
Extracapsular spread	No	Yes	Cannot be assessed
<i>If present, record</i>			
Distance to closest margin	__mm		
Other relevant macroscopic information	Text	<i>E.g. any additional orientation; specimen integrity (if disrupted)</i>	
Block identification key	Text
