

Uterus for endometrial and myometrial malignancies

Macroscopic reporting dictation template

Data element	Response
Fresh tissue received	No Yes <i>If yes, describe any additional tests/frozen sections/biobanking performed</i>
Specimen labelled as	Text <i>As stated by the clinician</i>
Operative procedure	Simple hysterectomy Radical hysterectomy Other, <i>specify</i>
Attached anatomical structures (<i>select all that apply</i>)	Vagin. cuff Ovary <i>Laterality</i> Fallopian tube <i>Laterality</i> Parametria Not identified
Accompanying specimens	None submitted Peritoneal biopsies Lymph nodes Omentum Other, <i>specify</i>
Ovary (<i>for each</i>)	Absent Present <i>Laterality</i> ___x___mm
Surface	Normal Abnormal, <i>describe</i>
Cut surface	Normal Abnormal, <i>describe</i>
Fallopian tube (<i>for each</i>)	Absent Present <i>Laterality</i> ___x___mm <i>Describe</i> ___
Omentum	Absent Present ___x___mm Proportion of fat replaced by tumour ___% (<i>est.</i>)
Peritoneal biopsies, <i>description and dimensions per site</i>	<i>Describe</i> ___ and ___x___
Uterus received	Intact Opened
Serosal surface	Normal Abnormal, <i>describe</i>
Measurement of uterus	<i>Midline fundal-serosa to ectocervix x max. intercornual x max. anterior to posterior</i> ___x___mm
Gross description	Text
Weight of uterus	___g
<i>For each tumour: (if >1 designate accordingly)</i>	
Macroscopic tumour site (<i>more than one may apply</i>)	Fundus Body Isthmus Other, <i>specify</i>
Maximum tumour dimension	___mm
Tumour appearance (<i>more than one may apply</i>)	Exophytic Endophytic Haemorrhagic Necrotic
Myometrial invasion	No Yes <i>Max. depth of invasion</i> ___mm <i>Thickness of adjacent myometrium</i> ___mm
Endometrial thickness	___mm
Distance of endomet. tumour from the inferior surgical margin	___mm
Cervical involvement	No Yes, <i>record the elements below</i>
Distance from the inferior surgical margin	___mm
Maximum depth of cervical wall invasion	___mm
Other endometrial abnormalities	No Yes Polyp Other, <i>describe</i>
Thickness of uninvolved cervical wall	___mm
Lymph nodes	Not received Received <i>Record site, macros. tumour present, number per site and per cassette</i>
Additional macroscopic comments	Text <i>E.g. any additional orientation; specimen integrity (if disrupted)</i>
Block identification key	Text <i>Describe nature and site of blocks</i>

Refer to [Structured Reporting of Cancer Pathology](#) for current details of Standards and Guidelines

Uterus cervical invasive tumours

Macroscopic reporting dictation template

Data element	Response				
Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>		
Specimen labelled as	Text	As stated by the clinician			
Orientation markers					
Specimen – external appearance					
Specimen measurements (Uterine dimensions)	<i>Superior to inferior x distance between cornu x anterior to posterior __x__x__mm</i>				
Cervix dimensions	__x__x__mm		<i>Anterior-posterior (12 to 6 o'clock) x transverse (3 to 6 o'clock)</i>		
Vaginal cuff	Absent		Present		Dimensions <i>length x diameter</i> __x__mm
Parametrium, <i>describe for left and right</i>	Absent		Present	Laterality	__x__x__mm
Description of uterus and accompanying organs/tissues	Text				
Ovary, <i>describe for left and right</i>	Absent		Present	Laterality	__x__x__mm <i>Describe</i>
Fallopian tube, <i>describe for left and right</i>	Absent		Present	Laterality	__x__mm <i>Describe</i>
Macroscopically visible tumour	Absent		Present, <i>describe</i>		
Number of visible tumours					
<i>For each tumour: (if >1 designate accordingly)</i>					
Tumour location within ectocervix/endocervix plane					
Tumour location radially (clock-face)					
Tumour size	<i>Length x width in mucosal surface area</i> __x__mm				
Tumour appearance					
Tumour thickness	<i>Record thickness from the tumour surface to deepest point of invasion out of the total cervical wall thickness in this region</i> __mm out of __mm				
Closest distance of tumour to resection margin	__mm				
Distance between tumours	__mm				
Outermost span of tumours	__mm				
Macroscopic invasion	Vaginal cuff	Uterine body	Parametrium	Other organs or tissues, <i>describe</i>	
Endometrial abnormalities	Absent		Present, <i>describe</i>		
Endometrial thickness	__mm				
Lymph nodes	Not received		Received	<i>Record site, laterality and number of nodes.</i>	
	Macroscopically does not appear involved			Macroscopically appears involved	
Other macroscopic description	Text		<i>E.g. any additional orientation; specimen integrity (if disrupted); relationship of tumour to other structures included in "anatomical components"</i>		
Nature and site of blocks	Text
